* Willing to relocate!

📁 PROFESSIONAL EXPERIENCE

Software Engineer Student, *Actualize*

12/2019 – 04/2020 | Chicago

- Learned fundamentals and best practices in full-stack web development in areas of project architecture, backend, frontend, and how to effectively self-teach new technologies
- Generated technical requirements and determined the most effective solutions, created wireframes, designed schema, and researched outside resources
- Built and tested backend, incorporated external APIs
- Created pages and routing, made web requests to retrieve data, formatted and styled results, incorporated libraries and themes

Middle Market Account Executive, *Upwork, LLC*

02/2019 – 10/2019 | Chicago

- Consulted clients on leveraging talent on Upwork platform for upcoming projects and/or filling talent gaps
- Matched creative agencies and independent freelancers with clients based on their needs and project scopes

Senior Account Executive, *CareerBuilder, LLC*

09/2016 – 02/2019 | Chicago

📁 PROJECTS

BeerEZ, *Ruby on Rails, Vue.js* 📄

Store for discovering and purchasing beer, and learning more about breweries. Includes user authentication for adding products to cart and checkout process.

Tastebuddies, *Node.js, Vue.js* 📄

Swipe through images of menu items from database of restaurants based on user selected cuisine preferences for dining recommendations.

Magnitude, *React, ChartJS* 📄

Leveraged Chart.js and a COVID-19 Data API for this historical data visualization project that breaks down U.S. statistics at the state and national level, including positive vs. negative test results, total death toll and daily death toll.

Bidcast, *Ruby on Rails, Vue.js*

Developed an app for advertisers and podcasts to get connected through a format of bidding for available ad-space. Presented project 📄 to live stream audience.

Full Measure, *Ruby on Rails, Vue.js, Google Maps API*

Group built app that maps and updates user-submitted local “malfeasance.”

🧠 SKILLS

Front-End

React, Vue, Javascript, HTML, CSS

Back-End
